

ACKNOWLEDGEMENTS:

The Allen Institute for Brain Science gratefully acknowledges the following contributors for their ongoing support of the NIH Blueprint Non-Human Primate Atlas:

David Amaral, PhD, Beneto Foundation Chair, Director of Research, M.I.N.D. Institute; Professor, Department of Psychiatry and Behavioral Sciences and Center for Neuroscience, School of Medicine; Core Investigator, California National Primate Research Center, University of California, Davis, and members of his research laboratory, for scientific guidance and tissue acquisition.

The staff of the **California National Primate Research Center**, for animal housing and care.

The Scientific and Program Administration personnel at the **National Institute of Mental Health**, for project guidance and administrative assistance.

Investigators at **Rosetta Inpharmatics and Merck & Co Ltd.**, for scientific advice that was critical for development of methods used to execute this work.

Julie R. Korenberg, PhD, MD, University of Utah Brain Institute, Utah, for advice on gene selection.

Patrick R. Hof, MD, Department of Neuroscience, Mount Sinai School of Medicine, New York, for consultation on methods and advice on gene selection.

Members of the **Scientific Advisory Board** of the Allen Institute for Brain Science, for general scientific advice.

The NIH Blueprint Non-Human Primate (NHP) Atlas, <http://www.blueprintnhpatlas.org>, is funded from Federal funds from the National Institutes of Mental Health, Department of Health and Human Services, under Contract HHSN-271-2008-0047-C to the Allen Institute for Brain Science (Seattle, WA). The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health.
